

2021 RECAP

After the initial fallout of the pandemic, 2021 saw Caz Recovery doing everything we could to best meet the needs of the people in our care.

We also took strategic steps to ensure that our programs will be around for years to come.

OUTCOMES

- **845** people supported
- **79%** of residents remained substance-free during their stay with us
- **89%** did not experience ER or hospital visits
- **58%** experienced a planned discharge
- **97%** of residents were satisfied with their care
